Description

FE-GROUP INVEST CLOSE COMPANY was founded by a group of Hungarian private individuals in 1994. The aim of its foundation - formulated in the articles of incorporation as well- was to introduce a company onto the Hungarian waste management market which maintains a harmonious balance between the services provided in specific waste management tasks and the general technical, planning, management, and investment developing, i.e. consulting - engineering activities. The clear intention of founding this company was to provide complex services on the Hungarian waste management market, and to offer the same for its business partners.
